Personal Projects:

Simple Interest Calculator Application(09/2019-11/2019):

It was my very first project with flutter. It was an application in which we gave some inputs (i.e. amount, term, rate of interest, currency) and it produced total amount after the term of year with the help of simple interest formula.

NoteKeeper Application(01/2020-02/2020):

It was another one with flutter. It holds and arrange your important notes by preference(i.e. high or low) wise. Database was managed by SQL queries.

Food Delivery Application(10/2020-Present):

This one is major one with flutter. In this, We have various types of restaurant to order food. Add them into our cart and place the order. We hold the personal data of the user.

E-Commerce Android Application(09/2020-Present):

It's an application that is totally build on android. In this, we are working on to increase the sell of small business. Anyone can make their account as a seller or customer with some valid proof.

Extra-Curricular Activity:

Member of NSS Unit in College

Member of Programming Club in College

Player of Hockey Team of College

Interest:

Cricket Music Adventures
